

Bermuda Environmental  
Consulting, Ltd.

### **Environmental Policy Statement**

Bermuda Environmental Consulting, Ltd., believes that in order to deliver the highest standards of service to our clients, we must demonstrate leadership in applying sound environmental principles to our own business.

- We are committed to looking for opportunities to reduce the environmental effects of our own operations, and support activities that promote environmental health and a sustainable global environment.
- We strive to minimise waste and pollution arising from our activities. All our activities conform to the applicable environmental legislation and where possible we strive to exceed these standards.
- We aim to reduce our consumption of raw materials, energy and fuel and use water sustainably.
- We encourage clients, contractors and suppliers to embrace sustainable behaviours.
- We are committed to communicating our Environmental Policy openly with all clients, stakeholders and the public.
- We are committed to continuing to improve our environmental performance through setting, monitoring and reviewing objectives and targets and this policy will be reviewed annually to assess its effectiveness.

A handwritten signature in black ink, appearing to read "Jack Ward", is written in a cursive style.
